Communication, Team Collaboration, Adaptability, Problem-solving, Time Management, Critical Thinking, Patience, Feedback Receptivity & Conflict Resolution

MY LIFE PHILOSOPHY

Progress is not achieved by luck or accident, but by working on yourself daily.

—— Epictetus

SUMMARY

Highly motivated aspiring software developer with a solid foundation in computer science and programming. Strong problem-solving skills and a keen attention to detail, coupled with a commitment to staying current with industry trends and emerging technologies.

PROJECTS

Chefs Place   01/2024 - 01/2024

- This project is a responsive and dynamic restaurant website built using React and Bootstrap 5. The website is designed to provide an engaging user experience for customers who want to explore the restaurant's menu, learn about its story, and make reservations. The use of React ensures a fast and seamless user interface, while Bootstrap 5 provides a modern and visually appealing design.

Home4You Real Estate   01/2024 - 01/2024

- The advanced MERN Stack real estate app utilizes MongoDB, Express.js, React.js, Node.js, and Firebase. Tailwind CSS ensures a polished UI, while secure JSON Web Token authentication and optional Google Authentication redefine the real estate experience. Redux is employed for efficient state management, combining security, flexibility, and modern design.

Xitter - Twitter clone   01/2024 - 01/2024

- Xitter is a full-stack Twitter clone application built with modern web technologies, including React, TypeScript, Tailwind CSS, Next.js, Zustand, and JWT authentication. This project aims to provide a scalable and feature-rich platform for users to share thoughts, engage in discussions, and connect with others in a familiar social media environment.
